## OBJECTIVE

---

Data Analyst and M.Sc. Data Science graduate with hands-on experience in Python, SQL, Power BI, Tableau, ETL processes, and predictive analytics. Skilled in data cleaning, exploratory data analysis, dashboard development, and machine learning. Experienced in transforming raw data into actionable business insights through real-world projects and internships. Seeking an entry-level Data Analyst/Data Scientist role to contribute analytical expertise and support data-driven decision-making.

## EDUCATION

---

- ANNAMALAI UNIVERSITY** 2024 - 2026  
M.Sc DATA SCIENCE  
89% - First Class With Distinction
- SHREE RAGHAVENDRA ARTS AND SCIENCE COLLEGE** 2020 - 2023  
B.Sc MATHEMATICS  
88% - First Class With Distinction

## SKILLS

---

- Programming Languages: Python, SQL(MySQL), R, Java (Basic)
- Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn
- Machine Learning: Classification, Regression, SMOTE, Feature Engineering, Model Evaluation
- Data Analytics: Exploratory Data Analysis(EDA), Data Cleaning, ETL Process, Data Validation, KPI Reporting
- Statistics & Mathematics: Statistical Analysis, Probability & Distributions, Quantitative Analysis
- Visualization: Power BI, Tableau, Excel
- Tools & Platforms: Streamlit, GitHub, Jupyter Notebook, AWS(Basic)
- Soft Skills: Analytical Thinking, Problem Solving, Team Collaboration, Time Management

## EXPERIENCE

---

- DATA ANALYTICS INTERN** May 2025 - June 2025  
NEXTGEN SOLUTIONS | Cuddalore
  - Cleaned and transformed datasets containing 10,000+ records using Python and SQL.
  - Performed exploratory data analysis (EDA) to identify trends, patterns, and business insights.
  - Conducted data validation and quality checks, improving reporting accuracy.
  - Developed interactive dashboards in Power BI and Tableau for KPI monitoring and business reporting.
  - Collaborated with stakeholders to support data-driven decision-making processes.

## PROJECTS

---

- AI-BASED MENTAL HEALTH RISK PREDICTION AND EARLY WARNING SYSTEM**  
**Technologies:** Python, Machine Learning, Scikit-learn, Pandas, streamlit, XAI, SMOTE, PowerBI
  - Built and evaluated Machine Learning models achieving 92% classification accuracy.
  - Applied SMOTE to handle class imbalance and improve prediction performance.
  - Performed feature engineering and model explainability using XAI techniques.
  - Developed an interactive Streamlit web application for real-time mental health risk assessment and prediction.

- Created Power BI dashboards to visualize risk factors, model insights, and prediction outcomes for data-driven decision making.

- **SHARK-TANK STARTUP INVESTMENT ANALYSIS**

**Technologies: Python, Pandas, Matplotlib, Seaborn, Scikit-learn, Tableau**

- Analyzed 500+ startup investment records using Python, SQL, Pandas, and Tableau.
- Conducted data cleaning and preprocessing to improve dataset quality.
- Identified investment trends, sector-wise funding patterns, and valuation insights.
- Developed predictive models to forecast startup funding outcomes.
- Created Tableau dashboards for investor-focused business intelligence reporting.

- **RAINFALL MEASUREMENT ANALYSIS USING TIME SERIES**

**Technologies: Excel, Statistical Analysis**

- Collected, cleaned, and analyzed rainfall datasets to identify seasonal trends, patterns, and variations.
- Applied time series forecasting techniques to estimate future rainfall levels and support data-driven analysis.
- Performed statistical analysis and trend evaluation to understand long-term rainfall behavior.
- Developed reports and visualizations in Excel to communicate key findings and forecasting insights.

## **CERTIFICATIONS**

---

- **AWS - SOLUTIONS ARCHITECTURE JOB SIMULATION**

Forage

Issued by 01/2026

Credential ID 3255XEveqKup9dQdz

- **DATA MANIPULATION IN PYTHON: MASTER PYTHON, NUMPY & PANDAS**

Udemy

Issued by 06/2024

Credential ID UC-0200475-00-470-200-7635757

- **DATA ANALYSIS USING EXCEL**

Great Learning

Issued by 02/2024

Credential ID QUEUHFWM

## **LANGUAGES**

---

- English
- Tamil

## **ADDITIONAL INFORMATION**

---

- Strong foundation in Mathematics, Statistics, and Data Science with First Class with Distinction in both B.Sc. Mathematics (88%) and M.Sc. Data Science (89%).
- Developed end-to-end Data Analytics and Machine Learning projects involving data cleaning, exploratory data analysis (EDA), predictive modeling, and dashboard development.
- Proficient in Python, SQL, Power BI, Tableau, and Streamlit, with a passion for leveraging data-driven insights to solve real-world business challenges and support decision-making.
